Never gonna let you go..  
gotta make this last a lifetime baby..  
this love we share has gotta grow..  
nothing is impossible  
if you just believe and hold on tightly its real..  
its real, im real..  
lets make real love last baby..

i need you by myside  
i dont wanna live without you..  
your my only smile baby..  
so i dont smile without..  
like the ocean we hold tight girl..  
my sun wont rise without you..  
your the air i breathe girl..  
my heart wont beat without you..

without you im nothing girl..im nothin girl  
without you im suffering, im suffering girl..  
without you im nothing girl..im nothin girl..  
without you girl..without you girl..

you taught me how to love..  
i know this sounds real cheesy but..  
you make me feel just like a man should..  
no way im lettin you go..  
i feel like im in such a lonley place..  
cos with you theres a smile on my face..  
i feel this love, this love..  
lets make it last forever

i need you by myside  
i dont wanna live without you..  
your my only smile baby..  
so i dont smile without you..  
like the ocean we hold tight girl..  
my sun wont rise without you..  
your the air i breathe girl..  
my heart wont beat without you..

without you im nothing girl..im nothin girl

without you im suffering, im suffering girl..  
without you im nothing girl..im nothin girl..  
without you girl..without you girl..

im a bird without wings  
im a kite with no strings  
without you id be wasting my life..wasting my  
life..without you  
im a train with no rails  
im a plain with no stakes  
your the sweetest thing ive ever tasted..im so glad we  
made it..  
cant imagine my life without you..

i need you by myside  
i dont wanna live without you..  
your my only smile baby..  
so i dont smile without you..  
like the ocean we hold tight girl..  
my sun wont rise without you..  
your the air i breathe girl..  
my heart wont beat without you..
