You believe in every thing they say  
You believe that if they come their way  
It's gonna turn you on  
You couldn't be more wrong  
You believe in everything they do  
You believe that they are telling the truth  
And they have got it made  
That's such a big mistake  
Everything's alright with you  
There's one thing you can't do  
And I believe that it's what I want  
Everything's right on the spot  
There's one thing you ain't got  
And I believe that it's what I need from you  
Everybody wants to sing this song  
Everybody wants to hum along  
But it's no easy key  
It's no easy key  
Everybody wanna join the game  
Everybody wants a piece of the fame  
And take the easy way in  
When there's no easy way out
