Today is the day i'll find the time for pleasure  
i'll do what i must do but at my lesson  
if i can find the girl to love before the day is done  
i'll fall in love, not thinking of tomorrow  
tomorrow may never come

today is the day, that we should spent together  
as if today were ment to be forever  
who knows what the future holds in stopping anyone  
so love me know, don't think about tomorrow  
tomorrow may never come

so walk with me a little while, you might discover this  
love is not a waste of of time it happens, with a kiss..

today is the day, that we should spent together  
as if today were ment to be forever  
if could find the girl to love before the day is done  
i'll fall in love, not thinking of tomorrow  
tomorrow may never come

who knows what the future holds in stopping anyone  
so love me know, don't think about tomorrow  
tomorrow may never come

today is the day  
now is the day  
today is the day
