I didn't want to, but I drank it
When you twisted my arm you didn't have to break it
Blue, blue love

It went down easy, I got good people
Then I saw your picture and remembered you were evil
Blue, blue love

Blue love is the taste
Of something you can't have
Blue love is for the one
That's never coming back

I took a trip, it was far, far away
You kept the rope tied tight anyway
Blue, blue love

I remember what it's like to fall in love, yes I do
The feeling and the color were never lost on you
I'm just a dog in the street at night
You'd throw me something if you'd only sleep tight
Blue, blue love

I know this is real so I won't complain
But when I feel it I feel a lot of pain
Blue, blue love

Blue love is the taste
Of something you can't have

Blue love is for the one that's never coming back
Don't stop me now, we're just getting started
I'm gonna take you to the place that you wanted
