I didn't mean to confuse the machine  
I just wrote some letters, does that mean anything?  
You are an angel, under the overflow  
Looking for someone to let you grow  
I'll take you on, I'll give you reason  
It won't be long 'til you're a hummingbird

Hummingbird

When I said later I think I meant sooner  
You never know what I mean anyway  
I've been so lazy, always run down  
Under the weather and over the joy  
You took me on, you give me some reason  
How long will it be 'til you're a hummingbird?

Hummingbird

If you can start, then you can stop it  
Rip up the tracks and make some new ground  
You were an angel, over the understand  
Looking for someone to let you go
