I try hard not to compromise her freedom
She tries so hard when she steers
And where's that God when I need Him
He always disappears
And walks away
Into yesterday
I tried too hard
Let down my guard again

You know I'm
Down here in the self defeat
You know it's kinda hard to make ends meet
In this town
I'm real tired and I can't relate
You know she don't appreciate my heart
In this town

I'm such a mess

Sometimes you gotta gotta let it go
She thinks of the yesterday as a window
For which she cannot see
And I know her past is gone; it's dirty
Yeah, polluted just like me
When will she love
You'll never know
I think too hard
Let down my guard again

You know I'm
Gave hope but there ain't no use
I may be young but that's no excuse
In this town
I've been tired and I still can't see
You know it might be you but it won't be me
In this town

She's such a mess
I know
She can't see but I know
I know

I tried too hard
Let down my guard again
When you're down here in the self defeat
You know it's kinda hard to make ends meet
In this town
I'm real tired and I can't relate
You know
She don't appreciate my heart in this town

We're such a mess
I know
Such a mess
I know
