[Verse 1:]

I admit that not a lot of time had passed by  
But we decided that we would be together  
Everybody they talked and had opinions  
They did

And they had doubts about what we would become  
But I knew you were and you knew I was the one  
Over other people no, we'd never make a fuss  
'cause it will never be about them, just us

[Bridge:]

Nobody but us  
Only me and him  
We're the only ones that matter  
They know what we've got  
Only me and him  
So we never mind the chatter

[Chorus:]

What it is that made us feel so good about it  
What it is that made me go half crazy for  
What it is that made him give it all to me  
It's all about us, as long as we know what it is  
That made us feel so good about it  
What it is that made me go half crazy for  
What it is that made him give it all to me  
It's all about us, as long as we know what it is

[Verse 2:]

There were moments not always so perfect  
But we know that's just the beauty of it  
Go through things and then we learn from them, oh  
Honestly we can work each other's last nerve  
Then make up with the sweetest of making love  
And no one has to understand that, just us

[Bridge:]

Nobody but us  
Only me and him  
We're the only ones that matter

They know what we've got  
Only me and him  
So we never mind the chatter

[Chorus:]

What it is that made us feel so good about it  
What it is that made me go half crazy for  
What it is that made him give it all to me  
It's all about us, as long as we know what it is  
That made us feel so good about it  
What it is that made me go half crazy for  
What it is that made him give it all to me  
It's all about us, as long as we know what it is

[Breakdown:]

Nobody but us baby  
They can't take you  
They can't take me  
They can't break us down no way  
We're not affected by what they say  
[Repeat]

[Repeat Chorus with ad lib till Fade Out]
