No two people on earth is better
Good luck tryin to find her, I know I'll never find him
You'll always be the one that got away
But you left so many traces, I could never escape

But see we almost made it out of hell
You were so close we could almost touch the stars
Baby I can feel your heartbeat
Your hands all over me
This is like a bad dream

Cause you were supposed to be mine
You were supposed to be mine mine
Well we ought to get out of hand
And now we're empty handed
And we can't go back in time

You were supposed to be mine
You were supposed to be mine mine
Well we ought to get out of hand
And now we're empty handed
And we can't get it back again
We'll never get it back again

You're with me wherever I go
Baby we were so incredible, we'll never even get it
And it's been so long since I've seen your face
And I wonder what it feel like just to look in those eyes
again

We almost made it out of hell
You were so close we could almost touch the stars
Baby I can feel your heartbeat
Remember you kissing me
This ain't the way it was supposed to be

You were supposed to be mine
You were supposed to be mine mine
Well we ought to get out of hand
And now we're empty handed
And we can't go back in time

You were supposed to be mine
You were supposed to be mine mine
Well we ought to get out of hand
And now we're empty handed
And we can't get it back again
We'll never get it back again

I used to try to erase it
But it never worked baby
Cause how could I erase a part of me?
You used to be the air I breathe
And I still dream that you're here with me
Every night I got to sleep
Nobody can understand
They all tell me to let go
But what's between two lovers only they know
So I hold you in a place where our love, it remains
And it's never gonna change

You were supposed to be mine
You were supposed to be mine mine
Well we ought to get out of hand
And now we're empty handed
And we can't go back in time

You were supposed to be mine
You were supposed to be mine mine
Well we ought to get out of hand
And now we're empty handed
And we can't get it back again
We'll never get it back again

You were supposed to be mine
You were supposed to be mine mine
Well we ought to get out of hand
And now we're empty handed
And we can't go back in time

You were supposed to be mine
You were supposed to be mine mine
Well we ought to get out of hand
And now we're empty handed
And we can't get it back again
We'll never get it back again
