Operate with full knowledge of what will become of them.

I surrounded, a jail is sickening.

God fear in man, who were there who were me?

And open up your cares, world. Let them at your enemies.

Open up your cares, world. Let them at your enemies.

Open up your cares, world. Let them at your enemies.

Open up your cares, world. Let them at your enemies.

Open up your cares, world. Let them at your enemies.

Open up your cares, world, oooooo hoooooo.
