I know you're feeling down
Because she broke your heart
Don't think that it's the end
You just got to try and start
Over with someone
Someone who's gonna care
Care about the way you feel
When no one else is there

But you gotta be patient because
Love takes some time
And you always gotta be on guard
'Cause true love is so hard to find
Never know who or where, how or why
When the woman you've been waiting for
Is right before your eyes

HOOK:

Whenever you're lonely you can call on me
'Cause I promise to be there until eternity
If the mountains may fall and the sun refuse to shine
I'll be with you through it all
Whenever you hold me I get a rush inside
You can tell by my touch that I just can't hide
The way I feel about you just feels so right

Baby, I will never leave

So open up your eyes
And let your mind free
What you've been searching for
Is all disguised in me
So don't you be afraid
'Cause I won't let you down
Sweet love and honesty
In you I've finally found

I'll be your fantasy
I'll be your dreams at night
Don't ever have a doubt
'Cause I'm feeling oh so right

To have you here with me
Feels like you're Heaven sent
And since you've been with me
I've been in love ever since

HOOK

Baby, I will never leave your side

I'll be with you through it all

Baby, I will never leave your side
