4 days in tears over you
On the 5th day I resigned to a life unloved without you
No miracle could bring you back to me so ride on sweet
cowboy

It was a big big love I gave
big big love I gave to you
It was big big love I gave to you
This was the movie moment, make or break

Will you come full circle back to me too late?
will you be clinging onto whatever remains?
It was a big big love
It was a big big love
It was a big big love
I gave to you
This was the movie moment, make or break
This was the movie moment, make or break
it's a big big love
it's a big big love
it's a big big love
it's a big big love
This was the movie moment, make or break
This was the movie moment, make or break
It was a big big love
It was a big big love
