I'm a walking advertisement for all my addictions
I'm a selection of the finest human contradictions

I'm a walking advertisement for the new horizon
I'm a walking advertisement for what I represent

Calling all the people can anybody hear me?
What do you all signify and yeah I'm an advertisement

I'm a walking advertisement for the new horizon
I'm a walking advertisement for what I represent

I am a walking advertisement
I am a walking advertisement
I am a walking advertisement
for what I represent
