"An Impossible Dream"

Visit "[An Impossible Dream](#)" on MotoLyrics.com

It seems to far away so very long ago
Remember when we believed that all dreams came
true
I wish it had stayed that way
You used to say stranger things have happened in this
life so hold on
Why don't you still believe in dreams?
Oh why don't you still believe like you did back then?
Unlike you I was reluctant just to walk away
I always kept them close
I couldn't just let go
I always kept them close
I couldn't just let go

Cos all I've really got in this life is my dreams to see me
through
And I always believe, oh I will always believe oh yeah

I know that it's an impossible dream but I can't walk
away
And I knew then and I know now
And I knew then and I know now
Yeah I know that it's an impossible dream but I believe
I still believe

I guess you could say I lived my dreams, they came
true for me
And they all said it was impossible but they were all
wrong
Oh they were all wrong
Unlike you I was relectant just to walk away
I always kept them close I couldn't just let go
Yeah I kept them close I couldn't let them go
All I've really got in this life is my dreams to see me
through
And I knew then what I know now
Yeah I knew then what I know now for sure
