A whole world laid bare at your fingertips
If you just wait for the right time
And no one will take what is rightly yours
All you have to do is just wait

A whole world of opportunities
All that you dreamt of will be yours

A whole world at your fingertips
A whole world at your fingertips
A whole wide world at your fingertips
It's there for you
Only for you
Ready for you at the right time

A whole world awaits
All you need
Everything that you dreamt of will be yours

A whole wide world at your fingertips
A whole wide world at your fingertips
A whole wide world waiting for you
A whole wide world at your fingertips

When the time is right everything will fall into place
Nothing will go by that's meant for you
If you just wait
A whole wide world waits for you at your fingertips
A whole wide world
A whole wide world
A whole wide world at your fingertips

All waits for you
It all waits for you
It all waits for you at your fingertips

All waits for you
All waits for you
It all waits for you at your fingertips
