Hey said ying to yang let's have a holiday  
take time off and go sunbath in the acid rain  
now that we are going out to fashion  
well and truely outta date  
nobody tends to bother with the mind spirit body thing  
anymore

So hey now take my hand and let me lead you ya  
We'll find our karma yeah  
Let's go sit underneath tree  
cos there is calm in the chaos, calm in the chaos  
there is cos there is calm in the chaos, calm in the  
chaos  
calm in the chaos of the big bad city

I swear that trees talk to me  
they say just take it easy  
baby you just gotta blow their in the breeze  
People call me crazy  
perhaps it's just a myth but I swear I know everything  
there is to know

I found calm in the chaos  
calm in the chaos, I found calm in the chaos of the big  
bad city  
calm in the chaos, calm in the chaos of the big bad city  
calm

I found calm in the chaos  
calm in the chaos, I found calm in the chaos of the big  
bad city  
I found calm in the chaos  
calm in the chaos, I found calm in the chaos of the big  
bad city  
I found calm in the chaos  
calm in the chaos, I found calm in the chaos of the big  
bad city
