Of all the times I've fallen apart to be with you
Of all the lines I've crossed and tried to read between
for you
Of all that waits forever just waiting for you
Of all I can give right now as I wait for you
Just to complete
Not half of what I could be
Just to be complete
No longer half of what I could be

I would wait my life for you
Yeah I have waited all my life for you

For a time to be complete
No longer half of what I could be
For a time to be complete
No longer half of what I should be
I'd wait for you
I'd wait for you
I'd wait for you
I'd wait for you
For a chance to be complete
Not half of what I should be
I'd wait for you
I'd wait for you

For a chance to be complete
No longer half of what I should be
I'd wait for you
I'd wait for you
I'd wait for you
I'd wait for you
I'd wait for you
