I'm just sick and tired of crying all my life away
Every night I cry myself to sleep
I just want to figure it out
Baby don't you understand
it should not be this hard to happy

why is it so hard just to be happy baby?
why is it so hard just to be happy?
why is it so hard just to be happy? just to be happy
It should be simple cos I love you and you love me
that should be all we need

but is it so damn hard why is it so hard just to be happy
baby?
Why is it so hard
just to be happy baby
why is it so hard just to be happy baby?
why is it so hard just to be happy baby?
why is it so hard?
just to be happy

all the problems I can see must be in your imagination
I can't see a single thing that's wrong
baby it was meant to be
so what's the problem come to me
Make it oh so easy on yourself

why is it so hard just to be happy baby?
why is it so hard just to be happy baby?
why is it so hard just to be happy?
Yeah Yeah just to be happy

why is it so damn hard just to be happy baby?
why is it so damn hard just to be happy baby?
why is it so hard
