I was feeling low, feeling a little bit lost a little bit cold
then you came along and make alright made more
than fine
Hey how did you know that I needed somebody just like
you?
Hey how could you tell I felt the same way about you?

Hey how did you know? How did you know I needed
you?
Hey how did you know? How did you know I needed
you?
Hey how did you know? How did you know that I
needed someone like you
hey how did you know?

I was really tired of being on my own
Just wanted somewhere to belong
I was looking long for something better
but nothing ever seemed to come along until you

how did you know?
