"I Wish"

Visit "[I Wish](#)" on MotoLyrics.com

It might only be in my head that you're such a sweet
prince but you will always be my sweet prince
I don't care what they say they won't convince me any
other way
I need that, I need that

I wish I could spend my life with you
I wish you could hold me in your arms
I wish I could spend my life with you
I wish you could hold me in your arms
I wish I could spend my life with you
I wish you could hold me in your arms
I wish hold me in your arms
I wish, I wished for you

Sometimes you can't put things into perspective it's
true
And other times it makes perfect sense
but know my heart will always be true for you and only
you my sweet prince
oh yeah only you my sweet prince
ony you my sweet prince

I wish I could spend my life with you
I wish you could hold me in your arms
I wish I could spend my life with you
I wish you could wrap your arms around me

I wish I could spend my life with you
I wish you were here it's true
I wish I could spend my life with you
I wish you would wrap your arms around me
I wish I could spend my life with you
I wish you that you would wrap your arms around me
I wish I could spend my life with you
I wish I could spend my life with you sweet prince
