I didn't believe in love at first sight until the day I set
eyes on you
I could call it from the tallest the mountain how much I
love you
but still the news wouldn't reach you
I could paint it across the sky in colours so bold and
bright
it would forever illuminate the sky at night
but you would never notice, you would never see the
message from me,
the message from me

I can't make you love me
I can't make you stay
I can't make you love me
No I can't make you stay

I could quote every line ever written of love
and make some more up but it wouldn't be enough
I could sing a thousand love songs in every different
key
yet not one would strike a chord with your heart and
make you see

I could paint it across the sky in colours so bold and
bright
it would forever illuminate the sky at night
but you would never notice you would never see the
message from me
I could paint it across the sky in colours so bold and
bright
it would forever illuminate the sky at night
but you would never notice, you would never see
the message from me
I could paint it across the sky in colours so bold and
bright
it would forever illuminate the sky at night
but you would never notice you would never see the
message illuminating love from me
