Take your time
don't break my heart
be my illusion
my main substitution
My glue when I'm falling apart

Many years away from now I'll be able to thank-you
for believing in me when the rest couldn't or simply
wouldn't

Speak of this illusion you hold where the streets are
paved with gold
Tell me how all dreams come true
Provide me with the illusion I seek
Speak of this illusion
show me this illusion
sell me the illusion
illusion I need

Take your time
don't break my heart
be my illusion
my main substitution
My glue when I'm falling apart

Speak of this illusion you hold where the streets are
paved with gold
Tell me how all dreams come true
Provide me with the illusion I seek

Speak of this illusion
show me this illusion
sell me the illusion
illusion I need
