I try to keep my distance I try to resist
I don't let anyone know I feel feel like this
Nobody else ever came close
there's noone else I've loved you the most

Everytime that I see you I'm reminded I made the
wrong choice
Everytime that I see you I'm reminded I made the
wrong choice
Everytime that I see you, made the wrong choice
Everytime that I see you, made the wrong choice

No one needs to know, no one ever needs to know
I won't tell your secret, I won't tell your secret
don't you tell a soul

It's always been you
It's always been you

Everytime that I see you, made the wrong choice
Everytime that I see you, made the wrong choice
Everytime that I see you, made the wrong choice
Everytime that I see you, made the wrong choice
Everytime that I see you, made the wrong choice
Everytime that I see you, I'm reminded made the wrong
choice
Everytime that I see you I'm reminded I made the
wrong choice
Everytime that I see you I'm reminded I made the
wrong choice
made the wrong choice
