I got your message  
I don't believe it  
I really loved you  
I gave you all the love you craved  
Why would you turn that away?  
Why would you turn that away?

I see you every night in my dreams  
I see you every night in my dreams  
I see you every night in my dreams  
I see you every night in my dreams  
in my dreams  
in my dreams

You take one step forward and ten steps back  
You give me challenges that I can't pass  
It's no solution but if you don't want me  
I've got to leave

I see you every night in my dreams  
I'll see you every night in my dreams  
I'll see you every night in my dreams  
I'll see you every night  
I'll see you every night in my dreams  
I'll see you every night in my dreams  
I'll see you every night in my dreams  
I'll see you every night  
Oh I'll see you every night  
I'll see you every night in my dreams  
I'll see you every night in my dreams  
I'll see you every night in my dreams  
I'll see you every night  
I'll see you every night in my dreams  
I'll see you every night in my dreams  
I'll see you every night in my dreams  
I'll see you every night
