Cast your spell, hold me prisoner in the palm of your
hand
don't set me free, do as you wish
Cast your spell on me

So say those words that must be said
And do what must be done to cast your spell on me
yeah say those words that must be said
And do what must be done to cast your spell on me

to keep prisoner to your charms
to keep me captive at your hands
cast your spell on me

your legacy is one of love tainted by your need for lust
breaking hearts and gently piecing them together
again
until the cycle repeats but maybe I don't want to leave

So say those words that must be said
And do what must be done to cast your spell on me
Oh say those words that must be said
And do what must be done to cast your spell on me

to keep prisoner to your charms
to keep me captive at your hands
oh cast your spell on me

oh keep prisoner to your charms
oh keep me captive at your hands
oh cast your spell on me
