"Missing Piece"

Visit "[Missing Piece](#)" on MotoLyrics.com

You don't need to be alone
You could be the one for me I'm sure
You don't need to be alone
I could be your missing piece

You don't need to be alone
You don't need to look so sad no more
You don't need to be alone
I could be your missing piece

You might be just what I'm needing
Maybe I'm right for you
Maybe I'm right for you

I could be your missing piece
I could be the one you need
I could be your missing piece
I could be the one you need
You don't need to be alone
You don't need to be alone
I could be your missing piece
I could be your long lost half
Maybe we could find a way to communicate
I could be your missing piece
I could be the one you need
You don't want anybody else cos I'm the one you need
I could be your missing piece
the other half you thought was lost
I could be your missing peice

We should be reunited
We could be together again
I could be your missing piece
I could be the one you need

I could be your missing piece
I could be the one you need
I will be your missing piece
I will be all you need
