Normally I'm only window shopping  
Never see anything I want to buy  
Had to stop and stare when I saw your face  
You are something I must try  
You got oh la la that all the others lack

I think that you are gorgeous  
you should be in the aisle marked must have  
I think that you are gorgeous  
you should be in the aisle marked must have

you're so pretty pretty please  
Oh you're so pretty pretty please

don't think I make a habit of this  
it is really not my style  
it is quite out of character  
Yeah it's not me

I must buy you up  
I'll put you on my credit card  
I'll spend every penny I have to make you mine  
I must have, I must buy

Yeah I think that you are gorgeous  
you should be in the aisle marked must have  
I think that you are gorgeous  
you should be in the aisle marked must have

you're so pretty pretty pretty please  
Oh you're so pretty pretty pretty please

Yeah I think that you are gorgeous  
and I won't be happy til your mine  
Yeah I think that you are gorgeous  
you are something I must try  
you are something I must try  
won't be happy til your mine  
won't be happy til your mine
