You can believe anything you like  
Oh if you desire to think that badly of me go ahead  
Not a word is true

Cos unlike you I never wasted a single I love you  
Every single I love you came from the heart  
unlike you I never wasted one single I love you

I said nothing when I couldn't tell them  
I walked on when I had to  
I never told no lies

Unlike you every single I love you came from my heart  
Oh I meant it when I said I loved you and only you  
Unlike you, every single I love you came from the heart  
Unlike you, I never wasted one single I love you  
Unlike you, every I love you came straight from my  
heart  
Unlike you, I never said it when I didn't mean it

I was hated cos I was cold  
Cos I never gave an I love you I never meant  
I was hated cos all I love yous were for you  
Unlike you, I never wasted a single one
