"Next To Mine"

Visit "[Next To Mine](#)" on MotoLyrics.com

In crowded nightclubs we are looking for someone
Sometimes we are looking for anyone
It is love we all truly desire
I'll give you something to quench that fire
I'll show you love
I'll show you love

Move your body next to mine
I wanna love you all night long
Move your body next to mine
I wanna feel you all night long
Move your body next to mine
I wanna hold you all night long
I'll show you love

Beautiful people doing ugly things
We fight the war against sin
Bring me passion and I will surrender
I will surrender

Move your body next to mine
I wanna love you all night long
Move your body next to mine
I wanna feel you all night long
Move your body next to mine
I wanna hold you all night long
I'll show you love
I'll show you love

Vision and blindness leave me speechless
I'll show you something like no other will do
I'll show you love
I'll show you love
I'll show you love
I'll show you love
I'll show you love
