It's not that easy
We both know we should leave it be
But it's all we'll ever need
You're my one true love
Yeah you're my destiny
You're my one true love

You're all I'd ever need
You're the missing piece of me
You're my destiny
You're my one true love

You're my one true love, one true love
You're my one true love, one true love
You're my one true love, one true love
Yet I let you slip through my fingertips

Yeah, you're my one true love, one true love
You're my one true love, one true love

You're my destiny
The one for me
I said, you're all I'd ever need
You're my one true love
You're my destiny
You're my one true love

You're, You're the one for me
One for me
Oh your my destiny, destiny
You're the one for me, the one for me
You're my destiny
