One day you'll look in her eyes and you'll know
One day you'll feel sick 'cause you'll know that you let
the wrong one go and kept the wrong ones close
One day you'll know, one day you'll know

One day you'll travel round to my door but I will not live
here anymore
One day I won't be around no
One day I'll walk purgatory to escape you
One day I'll fail and I'll fall apart

Citing your name as the reason
Citing your name for deicet and some
Citing your name as the reason
The reason I came undone

One day I won't be around
One day I won't be around
One day I won't be around and you'll need me
Oh one day I won't be around
One day you'll be sorry
You'll be sorry I'm sure but I won't be available for
apologies then
One day you'll be sorry, you'll be sorry I'm sure
I won't be around I'll be broken by then
I won't be around I'll be undone by then
One day you'll be sorry but I won't be here
One day you'll be sorry but I won't be here
