I want be your rockstar baby  
Wanna be the one to rocks your world  
All the girls wanna keep you  
I'll be the only one who can please you  
I want be your rockstar baby  
Wanna be the one that rocks your world  
I wanna be the one that keeps you coming back  
when all the years go by and by and by

let me rock your world  
let me rock your world  
let me rock your world  
let me rock your world  
let me rock your world

Anything else is just a compromise  
you deserve much better than second best  
you know you can past this test so go on take on  
you know you want to baby  
come on and make my day  
you know I want to baby  
come on and make your day

let me rock your world  
let me rock your world  
let me rock your world  
let me rock your world  
let me rock your world  
let me rock your world  
let me rock your world  
let me rock your world  
let me rock your world  
let me rock your world  
let me rock your world  
come on baby  
come on baby  
come on now baby  
you know you want me to rock your world  
let's rock it
