My head is a mess, I can't find peace
I just feel paranoid
all those people they're looking at me
I don't know what to do
Can't find my way through it now
there's no point trying
I need sanctuary a place to be at peace
I need a sanctuary just to escape it all
take me away from it all
take me to a sanctuary

Somewhere they won't find me
Somewhere I'll be at peace
take me to a sanctuary
take me to the sanctuary
take me to a sanctuary

If I could spend my life with you I'd would feel at peace
but right now there are too many things in our way
too many promises I know you'll have to break

Take me somewhere safe, take me to a sanctuary

Just take me to a safe place, leave me there til it is all
gone
leave me there all alright again
abandon me somewhere you know I'll be okay
when the storm is over come back for me
come on back to the sanctuary
sanctuary
