Emma Forman
"She Says"

She's got that look in her eyes that says she's got
money to spend
The saturday night routine begins over and over again

There's got to be more to life than this
There's got to be more than this
There's got to be more to life than this
There's got to be more than this she says
There's got to be more to life than this
There's got to be more than this she says
She hopes
She prays
There's got to be more to life than this
She hopes
She prays
There's got to be more to life than this
She hopes
She prays

She's got the smile on her face, the one that says she's
been around
but she won't apologise instead she is going do a
second round

There's got to be more to life than this
There's got to be more than this
There's got to be more to life than this
There's got to be more than this she says
There's got to be more to life than this
There's got to be more than this she says
She prays
There's got to be more to life than this
She hopes
She prays
There's got to be more to life than this
She hopes
She prays

She had the time of her life last night but today she
feels all alone
Paradise seems so far away she's afraid to go back

home

There's got to be more to life than this
There's got to be more than this
There's got to be more to life than this
There's got to be more than this she says
There's got to be more to life than this
There's got to be more than this
There's got to be more to life than this
There's got to be more to life than this she says
She hopes
She prays
There's got to be more to life than this
She hopes
She prays
There's got to be more to life than this
She hopes
She prays
There's got to be more, got to be more
She hopes
She prays
There's got to be more to life than this
There's got to be more to life than this
