"Speak"

Visit "[Speak](#)" on MotoLyrics.com

Don't come a visiting unless you've got something
meaningful to say
Don't come driving by round this way unless you are
gonna stop
And say something worth hearing

I said, don't come calling round unless you are actually
are going to string a sentence out
I said, don't stop by unless you speak
When I say speak, I don't mean scream
I don't mean scream at the top of your lungs, I mean
just speak

I said, don't come calling round until you learn some
manners
I said, don't visit me unless it's need

I said, don't you come calling
Don't you come round this way unless you've got
something useful to say
Don't come stopping by unless you going to get out
your car this time

Don't come calling
Don't come calling by unless you've got some
conversation that's not dry

Oh if you've got wisdom, if you've got anything good to
say you know where I am
You know where I am, always
