I've stood on a cliff with my arms outstretched
the sun on my face and the wind in my hair
and dreamt of you, I dreamt of you
One more step and freedom arrive
but it is one more step further from your side
I stand on the edge for you

Let this be the last love song I write
Let this be the love song of my life
Let the message finally reach your ears
Let you feel loved

The girl who sang those beautiful beautiful love songs
quaked with fear when love looked her in the eyes
I know it's wrong to run from what you want the most
but I must hide

Let this be the last love song I write
Let this be the love song of my life
Let the message finally reach your ears
Let you feel loved

Let this be the last love song I write
Let this be the love song of my life
Let the message finally reach your ears
Let you feel loved
