I tried to catch your eye but you seem to hide  
Why are you running from me?  
What is there to run from?  
I just need to know  
oh if I let you go  
Will I get over it?  
Or will I always come back to this?

Cause I just want your love  
Cause I just want your love  
I just want your love, your love  
I just want your love, your love  
I just want your love, your love  
I just want your love, your love  
I just want your love  
I just want your love  
I just need your love  
I just want your love

Oh I could go back to my room in this hotel and dream  
of you  
but I have you right in front of me  
Oh baby don't wonder maybe, oh I think, it could work  
let me show

I just want your love, your love  
I just want your love, your love  
I just want your love, your love  
I just want your love, your love  
I just want your love, your love  
I just want your love, your love  
I just want your love, your love  
I just need your love

Want your love, your love  
Need your love, your love  
I just want your love, your love  
I just need your love, your love  
I just want your love, your love  
I just need your love, your love
