We've got years ahead of us  
We've got people who care for us  
We've got Sunday morning coffees in the sun  
We've got Monday night television

We've got years of happiness  
We've got decades of laughter ahead of us  
We've got Christmases with family by the sea  
We've got wine and vintage cheddar

Yeah, I have everything a man could ever want  
And all I'll ever need is you

Nothing can stop us now  
Only the good times left  
Nothing can stop our love  
Except terminal illness  
Or sudden accidental death
