Time standing still  
In this place on a dark day  
Your soul is gone  
I can't live without you

[Chorus:]  
My life won't be the same  
I know it's gonna change  
I lost a piece of my heart  
I've got to start all over again

I close my eyes  
I see your face and I feel your breath  
I stare to the sky  
I never did my goodbye

[Chorus 2x]

I wonder where you are  
I wonder why I'm here  
Please tell me Lord you know it  
Oh, my God, why not take me instead  
Starting over again, I'm so alone  
Starting over again, oh
