Wheres love come from, where's love go
what feeds love. what makes it grow,
Its All we need and we need to know
is wheres love come from wheres love go

I use to have a gal who lived down below
i use to go see her but i don't no more
i let fear close up my heart,
love fell away and fell apart
love is handsome love is kind
love is simple and so sublime
love can not live on its own,
ya got to make love feel at home

i saw love walkin' down the road
he said "theres two hearts outside of town"
it to long since i came around
if i get there before to late
they might not fill there hearts with hate
i'll knock on the door if they let me in
theres a real good chance that love can win

her momma died two years ago
she told her children here i go
said the hardest thing in life i do
is try to say goodbye to you
her sister was there for her last breath
she said it was a very peaceful death
but her momma's love lives on and on
its like some never ending song
