

Von Bondies, The "Earthquake"

Visit "[Earthquake](#)" on MotoLyrics.com

So glad to meet you baby
Let's start things over
and then i reach out honey
to send you over

This bad heart
This jealous love turn madly
better not fuck with us who's sorry?
you're sorry
so sorry

This is no earthquake honey
you just get sober
Why want you, wake up Baby?
We're taking over

(Thank you enough)
(Thank you enough)
(Thank you enough)

Will keep it arms linked baby
as we grow bolder
I'm so tired honey
Thank god here over

This bad Heart
This tainy Love turn madly
better not fuck with us who's sorry?
you're sorry
so sorry

This is no earthquake honey
you just get sober
Why want you, wake up Baby?
We're taking over

This isn't shame now
This is a plilight in your eyes
This is no earthquake honey
You just get older

older and older
ooooh oohhh ohh oh

This is no earthquake honey
you just get sober
I haven't seen you lately
let's talk things over

This is a shakedown
This is a dawning of your life
This is a earthquake honey
This is now our time (Who's sorry now?)
This is a shakedown (Who's sorry now?)
This is a plilight in your eyes (Who's sorry now?)
This isn't over (Who's sorry now?)
This isn't over (Who's sorry now?)
over and over (Who's sorry now?)

(Who's sorry now?)
(Who's sorry now?)
(Who's sorry now?)
(Who's sorry now?)
(Who's sorry now?)
(Who's sorry now?)
(Who's sorry)
