Put away your cigarettes  
And your high class attitude  
Turn emotion to devotion  
Baby i can see it in you too  
We all hail hail from rock and roll  
From behind a glass case

We all hail hail from rock and roll  
From behind a glass case

Put away your cigarettes  
And your high class attitude  
Turn emotion to devotion  
Baby i can see it in you too  
We all hail hail from rock and roll  
From behind a glass case

We all hail hail from rock and roll  
From behind a glass case

Put away your cigarettes  
And your high class attitude  
Turn emotion to devotion  
Baby i can see it in you too  
We all hail hail from rock and roll  
From behind a glass case

We all hail hail from rock and roll  
From behind a glass case

From behind a glass case  
From behind a glass case
