I'm the centre of whats getting you near
But if you wanna, you better come quickly
You're not that social, just a good drinker

I know a way, to make things better
Do i mean it, or am i just mean
You're not that social, just a good drinker

Ahh ah ah ah ah ah
Ahh ah ah ah ah ah

Theres no limits to the problems you bring
You need help, and i need the chance and its on its way
You're not that social, just a good drinker

I've been hinting for a long long time
You'll never make it, this is the end
You're not that social, just a good drinker

Ahh ah ah ah ah ah
Ahh ah ah ah ah ah

Breathe in, breathe out
I know you're tryin [x7]
Breathe in, breathe out
You're not that social, you're just a good drinker

Breathe in, breathe in
You're not that social, you're just a good drinker
Breathe in, breathe in

Breathe in, breathe out
I know you're tryin [x3]
Breathe in, breathe in [x2]
