Take a heart: from the album "Raw and Rare" by the Von Bondies

first you take a heart
then you break a heart
but before you do,
you make him fall for you

oh you shouldn't do that
(no you shouldn't do that) x3

you see me walk that floor
right outta my shoes
somebody help me please
tell me what to do

first you take a heart
then you break a heart
but before you do,
you make him fall for you

oh you shouldn't do that
(no you shouldn't do that) x3

send an SOS
my hearts in distress
somebody help me please
somebody take my place
for my sweet love, sweet love

first you take a heart
then you break a heart
but before you do,
you make it fall for you

oh you shouldn't do that
(no you shouldn't do that) x3

send an SOS
my hearts in distress
somebody help me please

somebody take my place
yea somebody, anybody
take my place x2

"have you ever been in love?
im speakin of true love, the only love
ive been in love, ive broken hearts in my day
lord you know my hearts been broken too
you know who you are x2
everyone has rythm
everyone has a beat
short, tall, black or white, we can all keep a beat
