[Talib]

Let me holler at you

[Talib and Bilal]

Can I talk to you?(x5)

[Talib]

I want you, cuz you make my heart skip the beat that I
drum to

I want to be the one you run to, when pain confronts
you

You're everything, sometimes I get nervous when I'm in
front you

You can hear it in my voice when I ask you if you
comfortable

Look how love do, I'd practice the Art of War for you
like Sun Tzu

Come through and arouse you every morning like the
sun do

If you blackout and collapse I want to help you to come
to

Notice I haven't yet got into what I want from you
I want you to come to when I come through and make
you shine like the sun do

I want you to be the valley for my river to run through
You're everything, you send your soul through your lips
to my heart

Sweet music will start I want you to be the music of my
art

When people try to rip us apart we got to work to stay
together

Go through the seasons of love and never change with
the weather

This is my wish list, what I want not what I need there's
a difference

These days I'm learning that words got power so I'ma
be specific

[Bilal]

Can I have a talk with you?

Can I make a dream come true?

Can I be in love with you?
Cuz I would if I could

[Talib]
Yeah sunflower
You must live in the infinite blackness that exists when I
close my eyes
I see you when I fall asleep, I see you when I dream

[Bilal]
Lil' darlin'
Set your soul on fire (lil' darlin')
Be your one desire (lil' darlin')
Lil' darlin'
Can I talk to you? (lil' darlin')
Lil' darlin', lil' darlin'
Can I talk? (lil' darlin')
Can I talk, can I talk, can I?
Lil' darlin' (lil' darlin')
Can I talk to you? (lil' darlin')
Let him talk to you
Set your soul on fire
