[Intro: magazine]

Uhhhhhhh

Y'all go wife on it

Come sit up on it

Y'all didn't know she's a freak from a long time

She took two men: one time

Take it here, take it anywhere, from here to brazil

[Hook]

Let me say she wants it

So she calls him

I know you want me right now

So I'm on it

She always say she needs me

But she calls him

I know you want me right now

So I'm on it, alright girl

[Wale]

Yeah, red bottoms, she ain't trying to dance

She gonna chauffer, after let's call a cab

Wet willy shit, pussy, I need a minute

I try to have them lips? shit

Okay I'm trying to hit, something's just gotta give

Can't read the future, my limit is so illiterate

Lyricaly celibate, you can't fuck with me

Y'all crazy to share the same cup with me

Low fitted, sure I'm with it

Polo purple like the dope I'm hitting

Word: one dope a-s nigga

Bitches scream "ralph" they don't know my?

These bars might flow life sentence

And I be in they panties if they be independent

I be in her mind, and y'all be "nevermind"

My marijuana loud?
