### "Greek Song"

Visit "[Greek Song](#)" on [MotoLyrics.com](http://MotoLyrics.com)

you who were born with the sun above your shoulders

you turn me on

you turn me on

you have to know

you who were born where the sun she keeps her  
distance

you turn me on

you turn me on

but so does she

you who were born there where beauty is existence

you turn me on

you turn your body heals my soul

you who were born where you shiver and you shudder

you turn me on

the girl is gone

so come on lets go

all the pearls of china

fade astride the volta

dont sew beelines to anybodys hide

save your poision for a lover who is on your side

one way is rome and the other way is mecca

on either side  
on either side  
of our motorbike  
one way is home and the other way is papa  
on either side  
on either side  
and prepared to strike  
when i get back i will  
dream of barnes and nobles  
dont leave me here  
dont leave me where angels fear to tread  
when i get back i will bleed after my beating  
dont leave me here  
dont leave me here  
im scared to death  
all the pearls of china  
fade astride the volta  
dont sew beelines to anybody's hide  
save your poison for a lover who is on your side  
all the pearls of china  
fade astride the volta  
dont sew beelines to anybody's hide  
save your poison for a lover who is on your side
