As of this moment I am living two lives
Up goes the down slope, trying to uphold the bonds
and bones that hold the upper most throne
Could I be the king once and future, or then again,
could I be the clown, the paralyzed mountain climber
Barely rhyming to survive, sometimes the show live can
seem like concrete,
to retreat from, I pay fifty bucks and then some
Back and forth, bus trips and bus stops (like Q-Tips
without tops)
forget the co-op, I'm repackaged into box
In a month I will be restocked and resold for fifty bucks
and then told to pay my own ransom or lose my traction
and forget about this jester juggling action and over-
exaggeration

I'm losing new friends for best friends
and my lonely life for only love
But it's been said by past live pound sounds
"music would watch you drown"
and stick around to catch the fire of another
Right now this music is drowning me
in a sea of "hellos" and "goodbyes" and "beep beeps"
that fly by
Where I am people say "fuck you" and they mean it,
where I'm from and going to
the words are "fuck you" meaning "how do you do?"
Look at me drinking so much ginseng ice tea
that I'd swear I've peed the orient in a sea
of energy rapidly siphoning me
If you could swim outside then you'd know what I found
I'll be the only one who cares in music I'll drown

microphone
stable bone
in this shaky
skeleton

Am I trading two lives for a million or million lives for
two?
Oh yeah! a boo boo I forgot I am mathematically

dyslexic

This vexing's hectic hexed and perplexed erect

Then wreck my own respect detected and then

detached -a sec-

I need a mic check to forget and infect this

Outlet is getting worn and torn I tear and tear my hair
from head

instead of red and blue my colors are sinking, sorry

TAKE SHELTER 'cause we're gonna explode (uh uh)

You know, we might implode

They're taking SHELTER and this is their last chance to
grow eyes
