

John Me

"Paris"

Visit "[Paris](#)" on MotoLyrics.com

We broke the rules, I'm glad we got out
Had to get out again, back in with the t running light
Take this heart and make it all worth while
Don't be the last one, get out in time
Get out in time, get out in time

I won't say that I'm unhappy with you
I won't say that I don't know what to do
I won't say that I'm unhappy with you
Take this heart and make a dream come true
Take this heart and make a dream come true

Cheap hotels, we drink what we get served
This can't be anything like all that you've heard
Lets get married, put a fence round our house
Lets make some babies, leave for Paris tonight
Lets leave tonight, lets leave tonight

I won't say that I'm unhappy with you
I won't say that I don't know what to do
I won't say that I'm unhappy with you
Take this heart and make a dream come true
Take this heart and make my dreams come true
