Fake Protection

Everytime, Everywhere
Strolling around cities of despair
Harassing the youth and protecting riches
That's not security, only political shit!

We hate what you are
Oppressor of this society
We Hate what you are
Just an armed body

Slaves of demagogic promises
And soldiers of the state violence
Preferring repress urban riot
And ignore social urgency
We hate what you are
Oppressor of this society
We Hate what you are
Just an armed body

What is fear? where is crime?
Your Fake protection is a perpetual oppression
No more crime wave in a land of money
You're an asshole you 'll make me sick till death

We hate what you are
Oppressor of this society
We Hate what you are
Just an armed body
