Human Contempt, Financial Interests
Blind Agressions Animal Execution
Will you support this fatal complicity?
Power is a bitch and industry follow it!

Green Riot! Critical Day!
Not to follow those criminal states! (x2)

Where is culture? What's this future?
Billionaire today, Criminal Everyday
Liberal Pollution! Human aggression!
Respect this planet or go fuck yourself
Green Riot! Critical Day!
Not to follow those criminal states! (x2)

They criticize civil aggression
And allow Planet execution!
What is our future now?
Answer this fuckin' question!
